

# Modified Starch FARMAL MS 5920

Vegetable cationic polymer obtained through the most advanced etherification technology.

## Specifications:

### Physical Chemical:

	<i>Min.</i>	<i>Max.</i>
Ash, %	-	2.00
Degree of substitution	0.016	0.023
Moisture, %	-	14.0
pH	4.0	6.0

## Main Uses:

Skin creams and lotions

## Features and Benefits:

- Imparts softness and smoothness to the skin.
- Promotes gel formation imparting body/viscosity, texture and good spreadability to the formulations.

## Packaging- Shelf Life:

Paper bag 25 kg - 730 days

## Storage:

Store in proper warehousing conditions.

## Regulatory Data:

CAS: 56780-58-6

E-Number: -

RDC nº481, 09/23/99-ANVISA (Brazil)

aug 10, 2005
